

COMPANY PROFILE

## About Us

I&E Petroleum Group is a dynamic company with presence in several parts of the world, which always seeks to simplify transactions and operations efficiently and effectively, allowing our customers to reduce costs and optimize their resources and processes. This, in order to face the complexity of current needs due to the constant change that exists in the demands of our environment. Our company has extensive experience mainly in the purchase and sale of raw materials, precious metals, energy and industrial products, oil, cement and other products.

## Company Description

I&E Petroleum Group offers institutional, wholesale and investment services in direct access to the global products market. We market in physical products markets and substantially in the oil derivatives, we not only work in the Caribbean, we also do it in the Gulf Coast region of Panama and the United States. Our team has extensive work experience, integrated approach and commitment to negotiate through the true value of products on all continents of the world.

## Company Objective

Was founded by a group of like-minded individuals with a share desire to pool relationships and capabilities to facilitate opportunities in the commodities arena. Our aim is to become a solid and well-respected trading company, focusing on those markets where we have a competitive edge; working exclusively with partners where we have a shared purpose to establish mutually beneficial trading arrangements. Our vision is to establish a focused oil trading firm, offering the best possible service, attracting the best talent in the industry and maintaining exemplary corporate governance.

**I&E PETROLEUM GROUP**
